

A large, dynamic splash of water is shown over a white globe, with the water splashing across the top and sides. The water is bright blue and contains many bubbles. Three different models of water pumps are shown in various orientations, appearing to be part of the water splash. One pump is at the top left, another is in the middle left, and a larger one is at the bottom left. The pumps are made of silver metal and have various ports and components.

The world runs on **GATES** Water Pumps

- Precision engineering for exact fit
- Leak free and long-life performance
- Stringent quality control

POWERING PROGRESS.™
